

## Sherwood Family Pet Clinic – 20900 SW Olds Place Sherwood, OR 97140 – (503) 625-5664

Dr. Robert Merrill, Dr. Courtney Woodside, Dr. Mark Schlimgen, Dr. Leticia Wustenberg, Dr. Christina Sitton, Dr. Kaitlyn Rudie

## **Surgical/Treatment Release Form**

Clinic Policy: If your pet is unvaccinated or overdue for vaccines, we will immunize or reschedule the appointment to prevent intra-hospital infection. If your pet cannot receive vaccinations due to health reasons, your pet will be housed in our isolation ward for their protection of other pets in the hospital. There will be a charge for any pet housed in isolation.  If fleas or flea droppings are found on your pet, we will treat with an appropriate flea medication. There will be a charge for administered flea medications.  If Pluids: These intravenous fluids help ensure safe anesthesia and help patients have better post-operative recovery. All pets undergoing anesthesia with have an IV eatheter placed and fluids administered during the procedure.  If Pre-Surgical/Anesthetic Blood Screen: This testing will help the veterinarian to identify pre-existing conditions not evident upon the pre-anesthetic examination which may cause complications involving anesthesia. This is recommended for all pets undergoing anesthesia and very strongly recommended for pets over 5 years of age.  My pet has had a blood screening within the past 30 days.  Yes, I would like a pre-anesthetic blood screening run on my pet.  No. I decline a pre-anesthetic blood screening run on my pet.  No. I decline a pre-anesthetic blood screening run on my pet.  No. I decline a pre-anesthetic blood screening run on my pet.  Stripical Laser: Most surgical procedures can now be performed with our surgical CO2 Laser unit. Laser surgery has many benefits including less post-operative pain, less swelling and less bleeding. We recommend using the laser for your pet's surgery.  Yes, Use the CO2 Laser for my pet.  The doctor is not recommending CO2 Laser surgery for this procedure.  Permanent Identification Microchip: A microchip insplanted under your pet's skin carries a unique number which can be read with a scanner. This number can be traced back to you so your pet can be reunited should it become lost. We recommend microchips for all pets.  My pet already	Owner	Pet's Name
